P Alert Meth Alarm

The meth contamination problem in property is now manageable, measurable and accountable with the P Alert Meth Alarm.

This proactive alarm takes away the guess work and supplies data. Instantly.

The P Alert Meth Alarm delivers:

24/7 meth monitoring
Reporting
Actionable data

This means:

You can protect your property investment from meth contamination.

You can assure your tenants a meth free property.

And if the situation arises where the P Alert Meth Alarm detects meth. You can take action on the data supplied and prevent damage to people and property.

The P Alert Meth Alarm is the only meth detecting tool you will ever need.

This alarm takes away the inaccuracy and manual labour of swab testing and creates a new way forward.

No swab testing
No onsite visits
No tenant disruption
No unknown factors related to meth contamination
